YEAR BOOK

---- VALEDICTORIAN ----

"Life"

Life is a book, in volumes three;
The past, the present, and the yet to be!
The first we've finished, and laid away,
The second we're reading day by day.
The third and last of these volumes three,
Is locked from sight. God keepeth the key.

The past years are laid away in one volume, and as time passes, pages that were once being read in the second are added to the first, making it grow larger as the years go by.

The second is being lived page by page, day by day, and the third, the volume of years to come is hidden from the eyes of man by the hand of God. Only He knows what is to come and how large or small that third volume is.

You may say to yourself, "Oh sure! I understand! All life is is a nice big book for us to enjoy reading." But that's not so, for this is no ordinary book. The volumes must be read with care; each day being lived to its fullest. For unlike ordinary books, this one may be read only once. We can only remember what we have read perhaps wishing at times that we had read with more care and understanding.

And so, one opinion of life is that of a large book; and I like to think of our grades at Parkdale as being a small chapter in this great volume. The chapter is finished now, but we can always look back and think of our readings as being ones worthwhile remembering.

As we go onto High School and then to our places in the world our memories of Parkdale will linger as being happy and friendly ones worthy of the name----Parkdale.

And so in closing may I say on behalf of all the grade nine students:

So Long Parkdale,
High School - Here we come!!

MR SOMERVILLE

The year 1951 and this year book are of unusual importance to Parkdale School for they mark the close of the long and active service which our principal, Mr. J.E. Somerville, has given to the school.

The yearbook has always had a message from him, but this year it has a message for him - a message of grateful thanks, deep appreciation and heartfelt wishes for his health and happiness in retirement.

Mr. Somerville came to Parkdale as principal in 1919 when the enrolment was 459. Today as he lays down his duties and responsibilities the school has grown to 681. During these 32 years thousands of pupils and many teachers have come and gone. None of them will ever forget his untiring energy on behalf of the school welfare - often in times of depression against heartbreaking difficulties.

Nor will they forget his cheerful friendliness which greeted them from Grade I and continued whenever they returned as former pupils to visit the old school.

Mr. Somerville has been Parkdale School to thousands now widely scattered. It is true to say that he will live in their memories grave and gay, as vividly as any in their whole lives. On their behalf I am bidding our well beloved principal 'God speed' with years of health to enjoy the rewards of his life spent for Parkdale School.

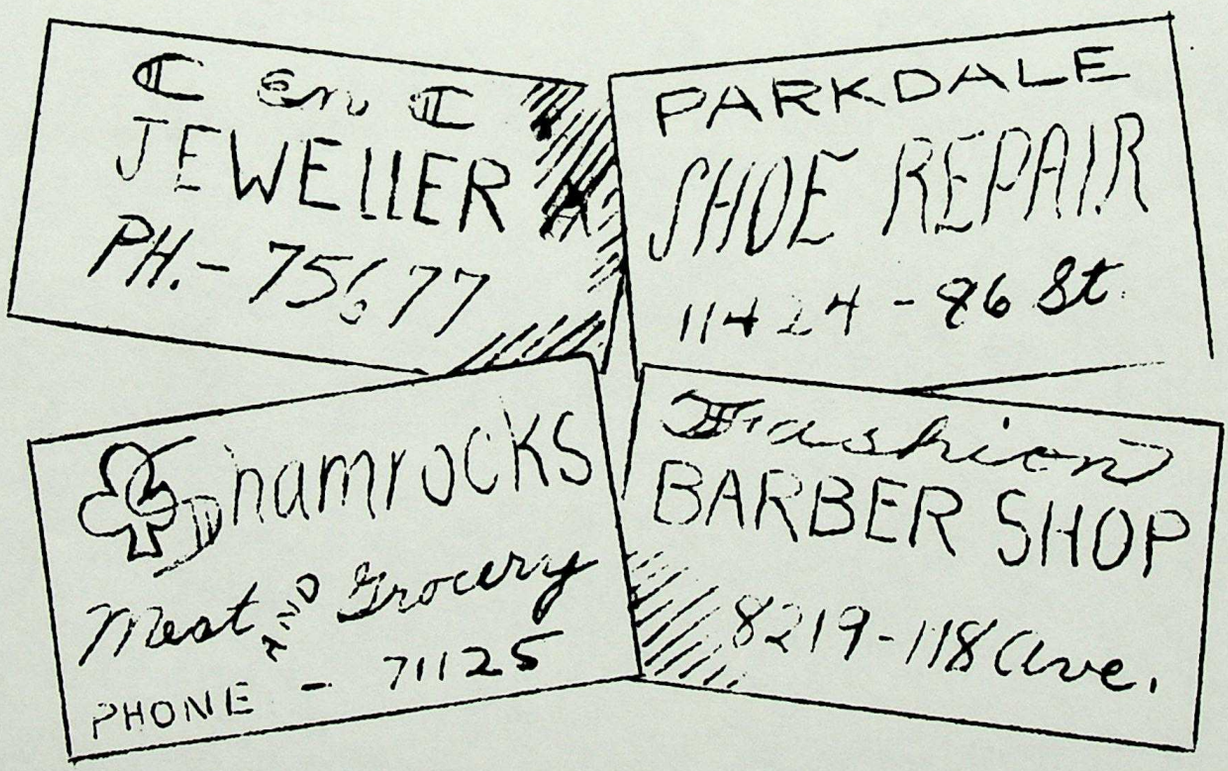
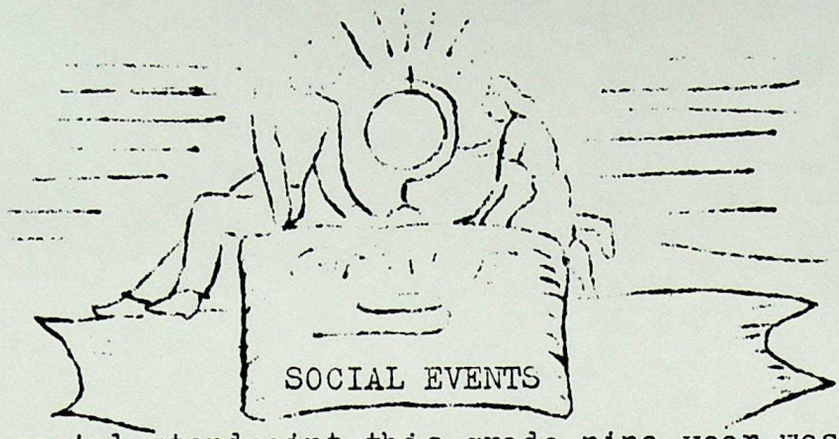
CITIZENSHIP CAMPAIGN

The citizen campaign, headed by Barbara Eggen, was off to a wonderful start in November. The teachers and committee were delighted with the response and enthusiasm presented by all students. Because of the pennents which were distributed to those rooms which were the neatest and most obedient and courteous, the rooms have been much improved. However, with the coming of the spring weather interest in the campaign has dwindled considerably, which was natural. We were disappointed with the outcome of the essay contest and hope the lack of interest was not the fault of the committee.

Without the suggestions and guidance of Mr. Souch who backed the campaign all the way, it wouldn't have been successful. So on behalf of all grade seven, eight and nine students we wish to express hearty thanks to Mr. Souch who made this campaign possible. We wish to thank Barbara and those of her committee in our appreciation of their fine work.





From a social standpoint this grade nine year was very successful. Our social convener, Bill Adams, with the aid of his committee, did a fine job of planning our years social activities. These consisted largely of three parties.

The first held on December 21st was a Christmas party. The entertainment included the following: a raffle at which two pound, one pound, and half pound boxes of chocolates were won by students and their acquaintances; games; prize dances; square dancing; a program on which students performed; carol singing, and last but not least refreshments. Fifty cents was paid by each student attending and this fee went towards paying for the food. What was left over was put in the treasury for further use.

Our St. Patrick's party (March 16) was also enjoyed greatly by the students. Each person was required to bring only twenty-five cents, the money remaining from our Christmas party, also being used. The program was similar to that of the Christmas party, with dancing, games, etc. The raffle, however, was held over until a later date. The gym was decorated gaily, in tune for St. Patrick's Day, with the traditional shamrocks hanging from colorful streamers. Balloons were used too as were at our Christmas party.

Our graduation dance is still to be looked foreward to, the date set being May 23rd. At this time crests will be presented for academic work, sports, and citizenship. A good time is hoped to be had by all, the teachers and students alike. With this With this party we will bring to a close our social activities and a year of fun and enjoyment.

JOKE COLUMN

On examinations, an anonymous student approaches Mrs. Phipps and exclaims, "I don't think I deserve an absolute zero".

Replied Mrs. Phipps, "Neither do I, but that's the lowest mark they allow."

"Mr. Houglund," asked a worried student, "when did you say that the end of the world might come?"

Exclaimed our jovial teacher, "I said fifty billion years".

"Thank heaven," said the pupil mopping his brow, "I thought you said fifty million!"

Which reminds me of the time when Dick Anderson said, "Am I glad my mother named me Dick!"

"Why?" quoth I.

"Because that's what everybody calls me".

A couple of boys who don't want their names mentioned went down to the river to do some fishing. After landing one, Vic Hominuk exclaimed, "I've got a haddock."

Replied Bill Adams, "Well, go buy some aspirins."

"Morley," bellowed Mr. Nichols, "Are you instructing this P.T. class?"

"No sir," was the meek reply.

"Then stop talking like an idiot".

Mr. Souch, trying to force early American history upon us brighter (?) students, asked, "Where was the Declaration of Independence signed?"

Replied Bob Hamilton, "On the bottom."

Miss Smith, grade eight's favorite (and only) English teacher was <u>trying</u> to teach them plurality.

"What is the plural of two?" she asked.

Answered one student, "Quadruplet."

Mr. Houglund: "What do you know about nitrates?"

Pupil: "Not much, but I know that they're cheaper than day rates."

If buttercups are yellow, what color are hiccups? Burple.

Says Mr. Houglund, "I don't mind it when pupils look at their watches while I'm talking, but what gets me is when they start looking at the calendar."

It seems that Miss Leslie was giving the class a study period, "Now I don't want any noise," she said, "No paper rustling, and definitely no talking to anyone! Is there anyone here who can't work without noise?"

Pupil: "Well, my pen scratches a bit".

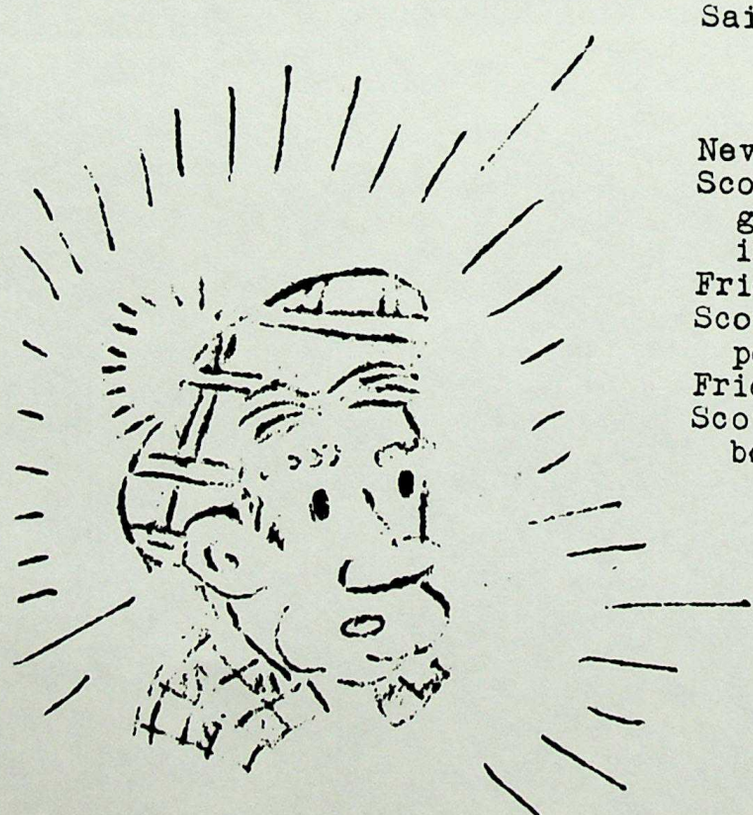
That's No Dream!

The editor stood at the pearly gates
His face was worn and old,
He meekly asked the man of fate
Admission to the fold.
"What have you done," St. Peter asked,
"To seek admission here?"
Oh, I ran the Parkdale Year Book
On earth one student year.
The pearly gates swung sharply open,
As St. Peter touched the bell,
"Come in," he said, "and take a harp,
You've had your share of hell."



How True!

A school magazine is a great invention
The school gets all the fame,
The printer gets all the money,
The staff gets all the blame.

Love?

Bill: "Since I met you I can't sleep, I can't eat."
Mary (shyly): "And why not?"
Bill: "I'm broke."

"I've raised a lot of families,"
Said the elevator boy.

Never Thought Of It -
Scot: (seeing his first hockey game) And do you laddies chasing about the ice get paid?
Friend: Oh yes; big salaries.
Scot: And the lad between the posts. Is he paid too?
Friend: Certainly; highly paid.
Scot: Wouldn't it be cheaper to board up the wee place?
